

## **BHRT Medical Solutions**

### **Bio-Identical Hormone Replacement Therapy (BHRT): A Revolution in Medicine, Health, Longevity & Quality of Life**

Thank you again for contacting us for Medically Supervised Hormone Replacement Therapy (MSHRT). Our medical center serves all 50 United States and US Territories. All of the Medical Doctors serving in our national network are fully up to date board certified and experts in Hormone Replacement Therapy (HRT), with no less than a minimum of 10 years experience in providing professional HRT, Anti-Aging, Longevity, Integrative or Cell Regeneration Medicine.

We look forward to working with you closely and speaking with you in-depth about your long term health goals and objectives. The information you provide our Medical Institute about yourself and your long term goals, will guide and enable us to co-create a customized Hormone Replacement Therapy (HRT) program to help you optimize your health and well being – most importantly your overall life style and quality of life.

Our Medical Institute offers an easy way for individuals to receive a comprehensive medical health assessment and lifestyle evaluation, in a single appointment. We focus on the early detection of health and aging deficiencies before they become real and present health problems. We also tailor our services and attention, not only to your individual health needs and concerns, but to the demands of your overall lifestyle.

Our Medical Institute provides a combination of Alternative, Holistic, Integrative and Complementary Medicine, with a focus on achieving optimal health. We are a forward thinking medical center bringing together the proven practices and the best of both traditional and natural Medicine.

In order for all of us to stay youthful, healthy and active throughout our normal lifespan, we need enough energy and nutrition to constantly make new cells for our tissues and organs to regenerate, grow and function properly, and for our body to repair and recover from our daily and lifestyle activities. Most of the important work within is done by enzymes, our “worker bees,” and our hormones, which regulate the amount and speed of that work.

When all of the above is abundantly present and in harmony, we will have a fine, working, happy physical machine; our bodies become optimized. "Cravings" will be much fewer, metabolism will function more efficiently (as will the burning of calories), symptoms of disease will be minimized, and we will experience a vibrant lifestyle, and age gracefully.

## **Welcome to BHRT, HGH & Testosterone Replacement Therapy**

### **Getting Started with Bio Identical Hormone Replacement Therapy**

Thank you again for contacting me and for your interest in BHRT (Bio-Identical Hormone Replacement Therapy).

We offer you as a client of our Medical Institute your very own personal health executive. If at any time, you have any questions, comments, issues or concerns, please don't hesitate to call from 10AM to 6PM Monday through Friday.

**About us:** US Based Doctor Monitored and Supervised Bio-Identical HRT

Our HRT Medical Institute specializes in Doctor monitored and supervised Bio-Identical Hormone Replacement Therapy for Adult Men and Women. We provide access to a network of board certified Medical Doctors in every State and County in the United States for getting you started with the required blood work analysis, saliva or urine testing, as well as a physical exam - all in a single convenient morning or afternoon appointment which works within your personal schedule.

Our Medical Institute provides medically approved, monitored and doctor supervised BHRT (Bio-identical Hormone Replacement Therapy) programs. More specifically we specialize in Integrative Medicine including Anti-Aging and Longevity Medical services. Our HRT programs are for adult men and women who are experiencing premature symptoms of aging and loss of quality of life.

### **Doctor Monitored, Supervised and Prescribed HRT**

Our Hormone Replacement Therapy MD Network is a US based Medical Alliance, part of a network of board certified medical doctors serving all 50 States (Members of the A4M), which provides FDA approved BHRT (Bio-Identical Hormone Replacement Therapy), HGH (Human Growth Hormone) , Testosterone Replacement Therapy and Integrative Medical Programs for adults over the age of 30, who are experiencing symptoms of adult onset growth hormone deficiency, or adult onset testosterone deficiency, e.g. premature aging

and Hypogonadism, respectively (**see symptoms below**).

Our medical directors are board certified Medical Doctor specializing in BHRT, with over 9,000 success stories from successful treatments providing prescribed and monitored HRT, HGH and Testosterone Therapy Replacement Programs.

The great majority our Medical Doctors are Members of World Health A4M [www.worldhealth.net](http://www.worldhealth.net), and registered with the Better Business Bureau.

### **Is it time to re-invent your quality of life?**

**Question:** “The HRT Question”: Is Injectable HGH Human Growth Hormone or Testosterone Replacement Therapy Right for you? Do You Qualify for HGH Therapy?

**Answer:** It may be right for you, and you qualify if you are at least 30 years of age, and genuinely feel three or more symptoms of premature aging causing problems or difficulties in your life:

#### **Symptoms of Premature Aging**

- 01.** [Low energy levels or loss of muscle strength](#)
- 02.** [Slow healing and recovery](#)
- 03.** [Sleep problems](#) at night
- 04.** [Fatigue during the day](#)
- 05.** [Mood swings](#) or Depression
- 06.** Memory Problems / loss of mental clarity
- 07.** [Slow muscle recovery](#)
- 08.** [Weight problems](#) (too much or not enough)
- 09.** [Loss of interest in sex or low libido](#)
- 10.** Any other persistent medical problems associated with [premature aging](#)

If you suffer from any (one or more) of these symptoms, you would be a potential candidate for Hormone Replacement Therapy.

**Note:** We do not provide BHRT for bodybuilders or professional athletes looking to use the bio-identical hormones for sport performance enhancement.

We only provide our BHRT medical health & wellness programs for people like you who have genuine medical need and who legitimately would like to overcome any of the health or medical issues caused by hormone deficiency, pre-mature aging and loss of quality of life. You may be experiencing some of these symptoms which are listed above in our list: “Do you have any of these Symptoms?” section, if you are experiencing any of these issues or any other symptoms associated with loss of quality of life, please call us to discuss these

issues with confidentiality assured.

### **Getting Started on an Affordable HGH Replacement Therapy Program**

If you have an interest in experiencing the documented beneficial effects of FDA approved HGH for genuine medical conditions, we provide HGH Therapy programs for US residents, at least 30 years old, genuinely experiencing symptoms of premature aging, and most importantly, ***NOT wanting to use HGH Therapy for body building or sports enhancement purposes.***

#### **Part One: FDA Approved HGH purposes, HGH Testing for HGH Deficiency**

**Convenience & Confidentiality:** We have a national network of several thousand board certified medical doctors in every state and county in the United States, in most cases there are several medical doctors in close proximity available to you, no more than a 25 minute drive away - Where you can get a comprehensive blood examination and physical exam in a single convenient appointment, your blood analysis results when completed will be sent to us in about a week. Our Medical director will contact you over the phone and go over your results with you.

**Traditionally**, when a person wanted to get a physical exam and have their blood drawn for analysis, they would schedule an appointment to meet with a doctor based on the doctor's availability, and then the patient would re-arrange their own schedule to fit the doctor's availability.

**We provide you with an alternative approach:** We will schedule an appointment for you to meet with one of our medical doctors based upon a time and location which is convenient for you (not the other way around), and has the least impact your work or personal life.

**Physical Exam and Blood work:** During your single convenient appointment you will get a physical exam you will have blood drawn. Your blood will be shipped via FedEx overnight delivery to LabCorp, the second largest independent blood analysis company in the United States (see: [www.Labcorp.com](http://www.Labcorp.com)), where over the next several days, a comprehensive blood analysis will be done. The resulting four page analysis of your blood and physical exam, will be reviewed at our headquarters by our prescribing doctor. Based on the symptoms you report and your blood results, you will be prescribed a customized and monitored HRT Program.

**The start up cost is a one time \$495 fee**, complete (no hidden costs, and all taxes included) – specifically - for a Physical Exam, a four page comprehensive blood work panel and follow up analysis by one of our board certified medical doctors – your prescriptions are available for one full year, you only pay for your medication afterwards.

## **Part Two: How to Purchase HGH and Costs of HGH**

**Affordable HGH Therapy:** Due to advances in genetic engineering and improved scientific advances in HGH production in the United States, the cost of pharmaceutically pure bio-identical HGH has come down significantly in price. Our typical Human Growth Hormone Replacement Therapy Programs costs an average of about \$400 to \$600 (depending on need) for one full month, and Testosterone Replacement Therapy Programs typically cost an average of about \$250 a month. The cost includes the monitoring, medical supplies, shipping, handling and insurance. Programs which are six months or one year long are even more affordable with 5% and 10% discounts, respectively.

**Affordable Monthly Payments:** We now offer 0% medical and healthcare financing as a courtesy for our clients who have at least average credit, and when we say 0% financing it is with NO hidden costs or fees. This is our way of making our HRT Programs more convenient for those who would rather make monthly payments, verses paying for their program all at once.

**Total Costs : HRT Program and Payment Methods:** The typical cost is in the low \$400s to the low \$600s a month for HGH Human Growth Hormone Replacement Therapy depending on your level of deficiency, and \$250 for Testosterone Replacement Therapy. For programs involving six and twelve month commitments, the price is reduced. You may pay upfront for the entire program, or finance at 0% interest with affordable monthly payments. Your personalized HRT Program is shipped by overnight delivery, via FedEx, from a US based pharmacy directly to your home. For security purposes, a signature is required.

Whether you are new to the Hormone Replacement Therapy Process, or looking for a superior quality clinic to carefully oversee your HRT therapy, Our Medical Institute is the right place to optimize your quality of life. Our board certified Medical Doctors will review your individual case, discuss your options with you, and develop a customized BHRT, HGH or Testosterone Therapy programs to put you back in the right direction for regaining wellness and vitality in your life!

Physician-guided Growth Hormone Therapy is approved for use by adults over age 30 in the United States. But remember, although most BHRT (Bio-identical Hormone Replacement Therapies) are generally safe, non-toxic and generally have no significant adverse side effects to approved therapies, it is not always the right choice for everyone. If you think that HRT is right for you.

We are looking forward to hearing from you.

Yours in Health, Happiness and Longevity.
